

Table of Contents

Section I - Teaching Mathematics: Foundations and Perspectives

Chapter 1 Teaching and Learning Mathematics in the Twenty-First Century

Chapter 2 Exploring What It Means to Know and Do Mathematics

Chapter 3 Mathematical Inquiry through Rich Tasks and Classroom Discourse

Chapter 4 Preparing to Teach and Planning for Mathematics Learning

Chapter 5 Blending Teaching and Assessment

Chapter 6 Teaching Mathematics for All Learners

Chapter 7 Tools for Learning Mathematics

Section II - Development of Mathematical Concepts and Procedures

Chapter 8 Developing Early Number Concepts and Number Sense

Chapter 9 Developing Meanings for the Operations

Chapter 10 Developing Basic Fact Fluency (Note: new chapter title)

Chapter 11 Developing Whole-Number Place Value Concepts

Chapter 12 Developing Strategies for Addition and Subtraction Computation

Chapter 13 Developing Strategies for Multiplication and Division Computation

Chapter 14 Algebraic Thinking: Generalizations, Patterns, and Functions

Chapter 15 Developing Fraction Concepts

Chapter 16 Developing Strategies for Fraction Computation

Chapter 17 Developing Concepts of Decimals and Percents

Chapter 18 Ratios, Proportions, and Proportional Reasoning (Note: revised chapter title)

Chapter 19 Developing Measurement Concepts

Chapter 20 Geometric Thinking and Geometric Concepts

Chapter 21 Developing Concepts of Data Analysis

Chapter 22 Exploring Concepts of Probability

Chapter 23 Developing Concepts of Exponents, Integers, and Real Numbers

Appendix Guide to Blackline Masters
